Multi-Plus Lighting Setup

Easy to follow instructions for these controller types:

- **Pentair EasyTouch® & IntelliTouch®**
- **Jandy AquaLink® RS OneTouch™** (REV R-current)
- **Zodiac AquaLink TRi®**

(Use your watch or phone to count the seconds accurately)

Step 1: Set all the above controllers to **IntelliBrite®.**

Step 2: Place panel in **Service Mode.** (use panel for switching lights on and off)

Step 3: Make sure lights have been off for **1 minute.**

Step 4: Turn lights **on for 2 seconds**, then **off for 12 seconds.**

Step 5: Repeat - Turn lights **on for 2 seconds**, then **off for 12 seconds.**

Step 6: Repeat again- Turn lights **on for 2 seconds**, then **off for 12 seconds.**

Step 7: **Turn on lights -** will be flashing RED. (if not, repeat steps 2 through 7).

Step 8: Turn off and on until lights are **flashing WHITE.**

Step 9: **Turn off lights for at least one minute.**

Your setup should now be complete. To confirm the system is working correctly, select a color via the controller or wall switch (depending on operating mode selected) and check to ensure all lights are synchronized and the correct color is displayed.
