

airb^oar

ADD SOME DRAMA TO YOUR POOL OR SPA.

airbär

Create the look of a bubbling volcano or river rapids. Or create an exciting aerated feature on a bench or shelf. Airbar delivers tiny air bubbles from the bottom of the spa or pool, infusing life into still waters and excitement to your water experience.

Used in many commercial waterparks and pools such as the Disney Aulani Hotel and Raging Waters, Airbar creates thrilling drama and adds a layer of fun to any body of water.

Available in white and grey, and virtually invisible when installed.
