

**PRESENTING THE SELF-CLEANING
POOL UNLIKE ANY OTHER.**

EVER.

THE TECHNOLOGY OF FREEDOM.

When it comes to spending your free time, there are more important things to do than tending to your swimming pool. Thanks to patented PCC2000® automatic in-floor pool cleaning and circulation system, **your pool will clean itself, while you relax.**

PCC2000 is engineered to clean your entire pool, including floors, steps, walls, benches, even spas. When not operating, the nozzles disappear back into the pool floor, becoming virtually invisible. There are no unsightly robotic cleaners and hoses; all that's left is a sparkling clean pool that's ready to enjoy. Custom designed for every unique pool shape, PCC2000 is **so effective it will clean 99% of your entire pool, guaranteed*** Not only are Paramounts in-floor cleaners considered the most technologically advanced pool cleaners available, they are also built to last for the life of your pool. That's why PCC2000 comes with a lifetime limited warranty on all cleaning jets. Relaxation, indeed.

- 99% pool cleaning guaranteed
- Cleans entire pool
- Patented debris removal method
- Always swim ready
- No mechanical cleaners and hoses to remove
- Saves chemical & energy costs with improved circulation
- No routine maintenance
- Limited lifetime warranty on cleaning nozzles
- Developed by the World's #1 In-Floor Cleaning Systems Company

*See cleaning certificate for complete details.

RELAXATION HAS NEVER BEEN MORE PATENTED.

ADVANCED CLEANING UNLIKE ANY OTHER

All in-floor pool cleaning systems are, by design, based on “agitation” that inefficiently and randomly move debris around the pool.

Except this one.

PCC2000 utilizes powerful floor nozzle technology and a proprietary system design to systemically sweep debris towards the patented Debris Collection Zone. This Zone, stretching across the deepest part of your pool, exerts a constant subtle flow in the direction of the debris removal drain. Debris entrapped within the Collection Zone is then efficiently delivered to the active MDX-R3 drain for removal from the pool.

PCC2000's debris management system leaves nothing to chance. It's patented, advanced cleaning and it's the only system of its kind.

- Only system designed with patented debris management
- Doesn't rely on random agitation
- Cleans faster than every other in-floor system
- Active main drain provides advanced cleaning
- Limited lifetime warranty on cleaning nozzles

THE PATENTED DEBRIS COLLECTION ZONE

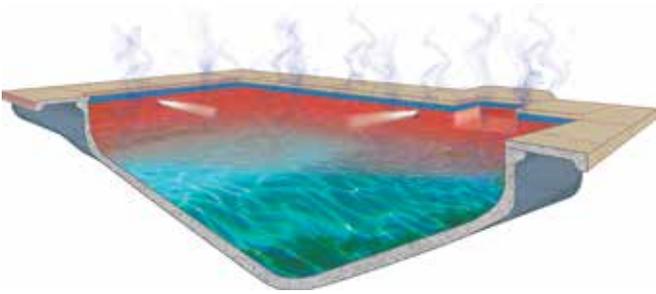

Strategically placed fixed nozzles and downjets direct debris into the MDX-R3 main drain

ENJOY CLEANER, HEALTHIER WATER.

NOT JUST A POWERFUL CLEANING SYSTEM; IT'S ALSO AN ADVANCED CIRCULATION SYSTEM.

Ordinary pools circulate water near the surface where chemicals and heat are quickly lost into the atmosphere. This wastes chemicals, heat energy, and can create algae-prone areas due to poor circulation.

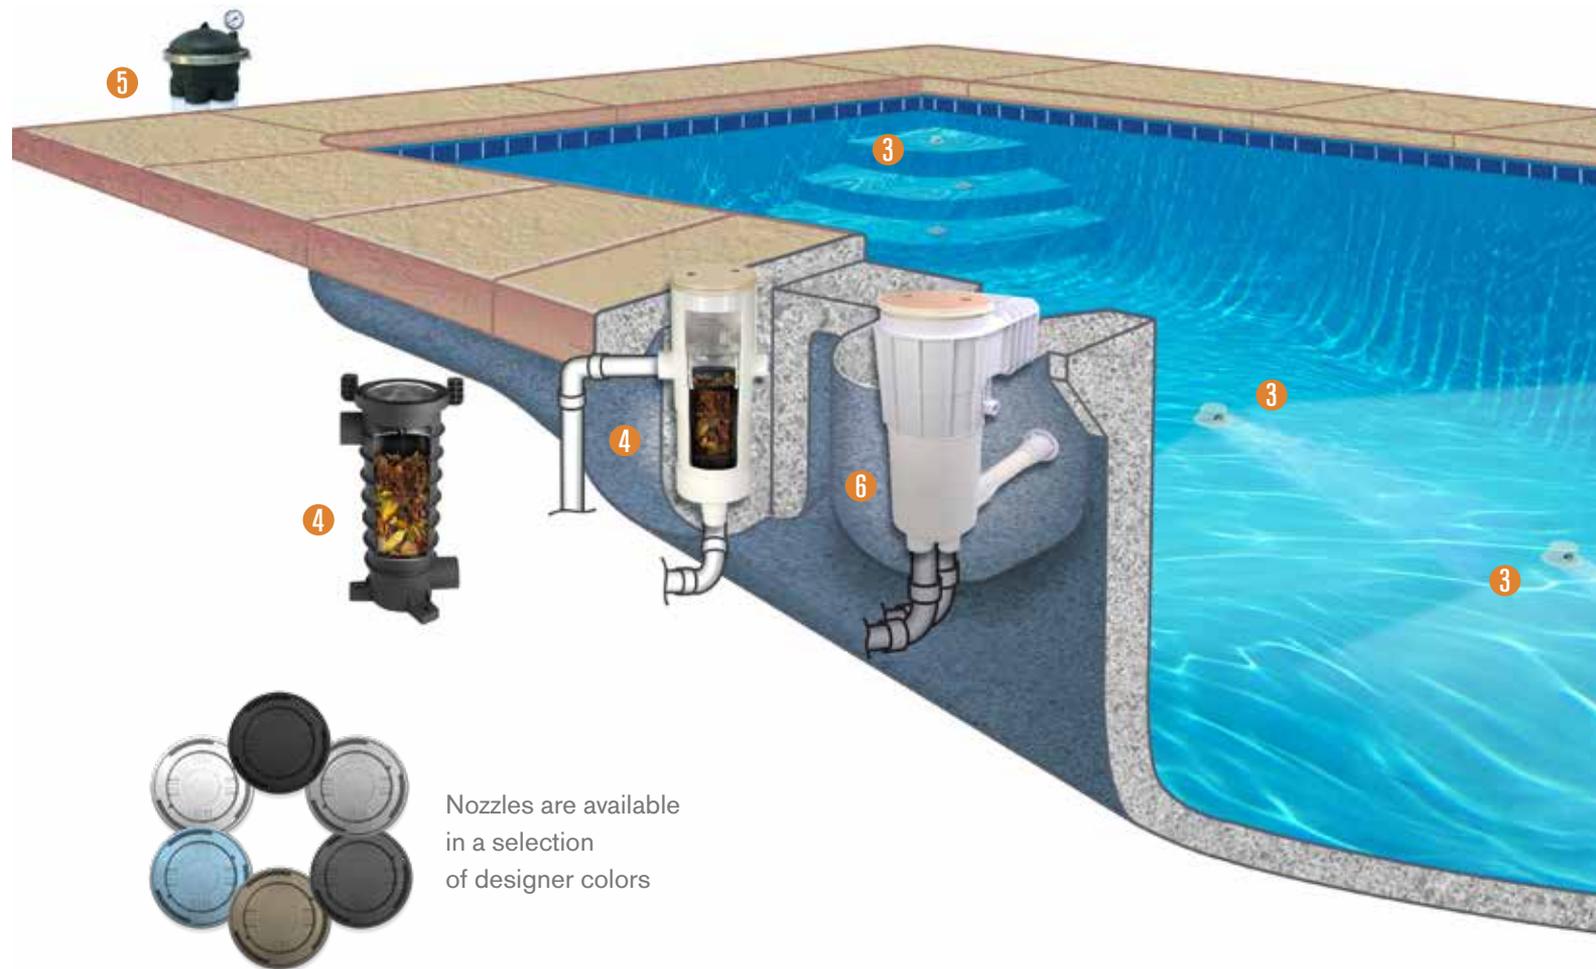

PCC2000 improves the circulation found in ordinary pools by evenly circulating the water. Every square inch, in fact. Rotating cleaning nozzles are strategically placed in the pool floor, steps and benches, creating complete circulation. Which means cleaner, healthier and more comfortable pool water, all while reducing the loss of chemicals and heating energy to the atmosphere. Saving money has never been healthier.

BENEFITS OF A WELL-CIRCULATED POOL

- Enhanced circulation even at low pump speeds
- No poorly circulated or algae-prone areas
- Eliminates cold spots for more comfortable swimming
- Extends the swim season
- Saves on chemical and heating costs
- Better for the environment

Nozzles are available

A SYSTEM OF EXCEPTIONAL PRODUCTS.

PATENTED DEBRIS COLLECTION ZONE

It's what separates PCC2000 from every other in-floor system on the market. A combination of fixed non-rotating cleaning nozzles on the pool floor and downjets on the walls create a continuous cleaning current, sweeping debris from every corner of your pool toward this patented debris collection zone, an area stretching across the deepest part of your pool. It's the **ultimate** in pool cleaning technology.

1 MDX-R3 DEBRIS DRAIN

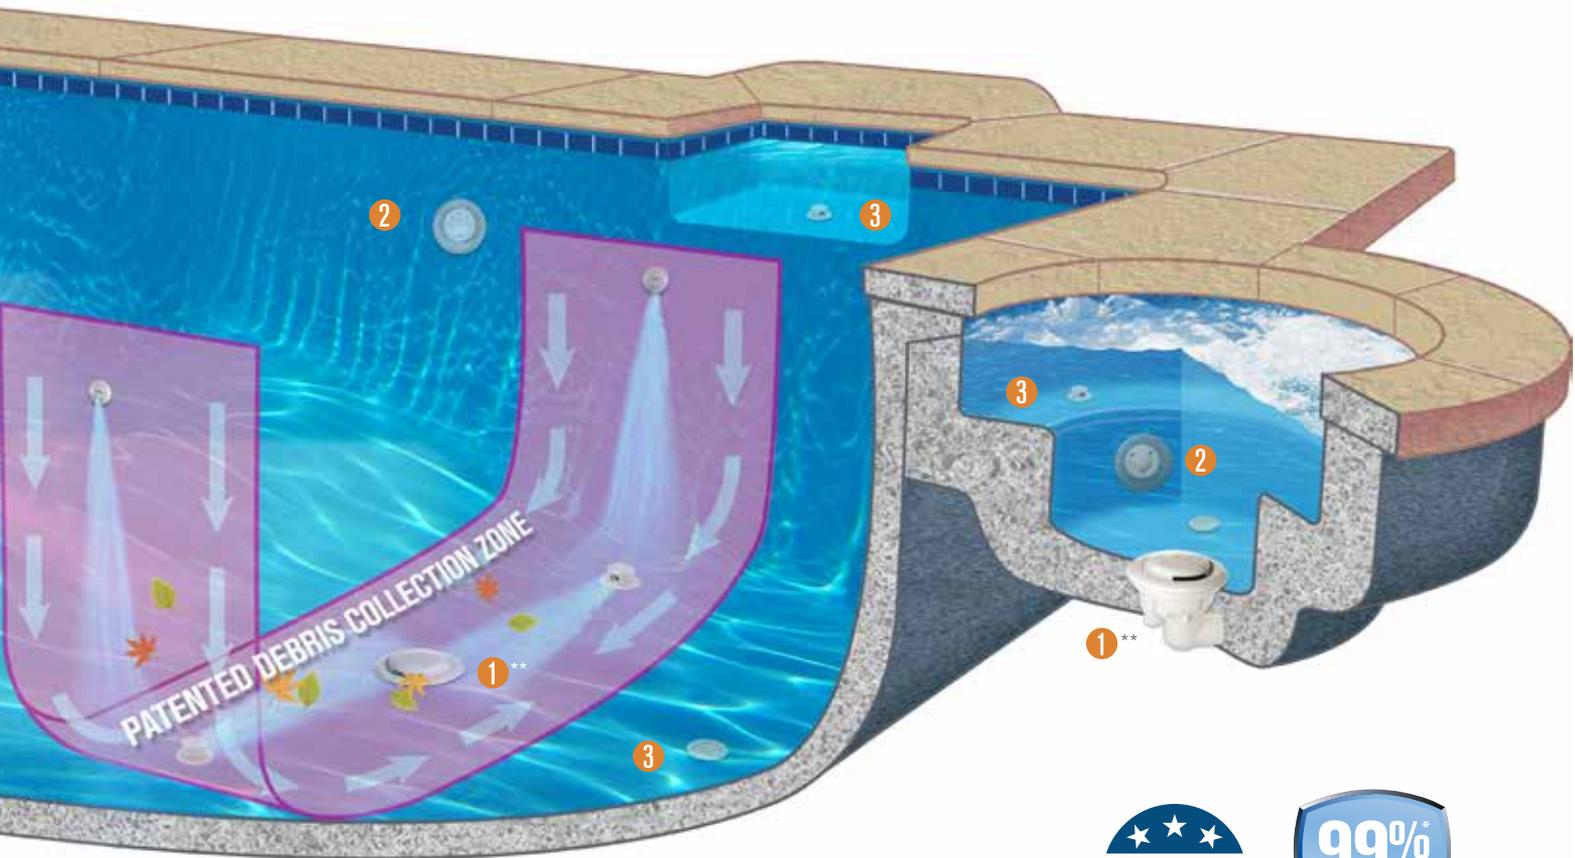

MDX-R3 safety drain continually collects large debris from the patented debris collection zone and delivers it to the optional DDC or EDC debris containment canisters.

2 HIGH FLOW SAFETY DRAIN

SDX2 high flow safety drain delivers superior flow at low velocities. It's patented "ribbed" design works together with the MDX-R3 for additional anti-entrapment protection.

▶ See PCC2000 in action at www.1paramount.com/products/pcc/

MDX-R3, Swingjet, Debris Containment Canister, and nozzles in steps, benches, swimouts, and spa are optional. **Warning: MDX-R3 and SDX2 must be installed in accordance with Paramount's written instruction manual in conformity with applicable federal, state, local and swimming pool industry building and safety codes.

3 PCC2000 NOZZLES

Rotating pop-up cleaning nozzles placed in floor, walls, steps, benches and spas to **clean the entire pool**. These jets work together to sweep debris toward the **patented collection zone**.

4 EDC/DDC DEBRIS CANISTERS

Optional debris canisters **collect debris before** it reaches the pump basket, keeping the pump running efficiently. Both feature the **largest capacity basket** on the market.

5 AUTOMATIC WATER VALVE

Functions as **the brain of the system** and directs a powerful flow of water to each set of cleaning nozzles. Requires **no routine maintenance**, and is also 100% pressure safe.

6 VENTURI SKIMMER

Optional eco-friendly ParaskimV Venturi action skimmer doubles cleaning power while using the same energy, providing effective skimming even at low pump speeds.

*See cleaning certificate for complete details.

MAXIMUM ENJOYMENT. MINIMAL EFFORT.

THE ULTIMATE IN SELF-CLEANING POOL TECHNOLOGY. PERIOD.

PCC2000 comes from a philosophy of being the best, leaving nothing to chance, and designing for every possibility. And the notion that **having a clean and healthy swimming pool shouldn't require the tedious and annoying cleaning practices of old.**

PCC2000 comes with a 99% cleaning guarantee and limited lifetime warranty on cleaning nozzles, because we've engineered it to be the best system to clean your pool, built right here in the USA, and by the **World's #1 In-Floor Cleaning Systems Company.**

**THAT'S POOL LIFE.
SIMPLIFIED.**

Pool life. *Simplified.*

Since applying for our first in-floor cleaning patent in 1967, Paramount has been a leader in pool technologies. Developing cleaning and circulation systems that will deliver superior results, while paying for themselves over the lifetime of the pool.

All Paramount products are made in America and designed to make your pool experience the most carefree and enjoyable experience possible.

“Our passion is driven by creating innovative products and services that simplify your pool life”
