WE'LL CLEAN.**

**CYCLEAN**  
IN-FLOOR CLEANING & CIRCULATION

# LET YOUR POOL CLEAN ITSELF

## Always Swim Ready

Build your pool to clean itself with Cycleclean, the automatic in-floor cleaning and circulation system. Built directly into the pool shell, Cycleclean is engineered to clean your entire pool, including walls, floors, steps, benches, and even spas. The nozzles pop up systematically to clean then retract flush with the pool floor after the cleaning cycle, becoming virtually invisible. There are no vacuum hoses left floating in the pool, or mechanical devices to be removed. All that's left is a sparkling clean pool that's ready to enjoy.

## 99% Guaranteed Clean & Carefree

Cycleclean is custom designed for your unique pool shape, and is so effective that it will clean 99% of your entire pool, guaranteed, with minimal maintenance required. In-floor cleaners considered the most technologically advanced pool cleaners available and are built to last for the life of your pool. That's why Cycleclean comes with a lifetime limited warranty on all cleaning nozzles. It's just one more way Cycleclean gives you peace of mind and a low maintenance pool.

- 99% total pool cleaning guaranteed\*, including steps, benches, spas and water features
- Complete circulation of chemicals and warm water throughout the pool
- No unsightly cleaner to remove from the pool
- Lifetime limited warranty on cleaning nozzles

\*99% Clean Guarantee: See cleaning certificate for complete details.

Clean & Virtually Unseen

# THE TECHNOLOGY BEHIND RELAXATION

## Powerful Cleaning Cycle

Cycleclean's ratcheting, rotating cleaning nozzles are placed strategically in your pool floor, steps and benches to work together to systematically sweep debris out of your pool through the main drain and skimmer. After about an hour, nearly every square inch of your pool will have been swept one time. After only a few hours, your pool will be cleaned. Now all that's left to do is relax and enjoy a clean, well circulated pool.

## Efficient & Economical

A key benefit of Cycleclean's water-powered hydraulic valve is its increased performance over traditional mechanical valves. Built for both single speed and multi-speed pumps, Cycleclean uses less energy and operates with more power each and every cleaning cycle. It provides enhanced circulation at even the lowest pump speeds, giving Cycleclean unsurpassed performance among agitation-style in-floor cleaning systems.

- Cycleclean's 12 position ratcheting, rotating nozzles effectively cleans the entire pool
- Nozzles retract flush with the pool floor and are **virtually invisible** when not in use
- Nozzles come with our **Lifetime Limited Warranty**
- Available in 6 colors

# ENJOY CLEANER, HEALTHIER WATER

## An Advanced Cleaning & Circulation System

In pools without a Cycleclean in-floor system, water circulates near the pool surface, where chemicals and heat are quickly lost into the atmosphere. This often leads to wasted chemicals, wasted heat energy and several poorly circulated and algae-prone areas throughout your pool. Cycleclean improves circulation with strategically placed cleaning nozzles in the pool floor, steps and benches that evenly circulate water throughout your pool. This improved circulation has been proven by independent studies to create cleaner, healthier, and more comfortable pool water, while reducing the loss of chemicals and heating energy into the atmosphere. This means Cycleclean will save you money while it cleans your pool.

Pool without Cycleclean in-floor system is poorly circulated, resulting in chemical and heat energy loss, as well as algae-prone areas

## BENEFITS OF A WELL-CIRCULATED POOL

Complete circulation of water and chemicals throughout the pool

No poorly circulated or algae-prone areas

Eliminates cold spots for more comfortable swimming

Extends the swim season

Saves on chemical and heating costs for the life of the pool

Better for the environment

## A SYSTEM OF EXCEPTIONAL PRODUCTS

### 1 AUTOMATIC WATER VALVE CONTROL SYSTEM

**Cyclean** Automatic Water Valve functions as the hydraulic brain of the system, directing a powerful flow of water to each set of cleaning nozzles and is 100% pressure safe.

### 2 ROTATING POP-UP NOZZLES SWEEP POOL DEBRIS

**Cyclean** rotating cleaning nozzles sweep debris off pool floors, steps and benches towards and into the optional debris removing **MDX-R3** debris drain and skimmer.

### 3 MDX-R3 DRAIN REMOVES POOL DEBRIS

The optional **MDX-R3** debris drain effectively removes large debris from the pool and into the containment canister. The **SDX2** offers an additional layer of anti-entrapment protection and handles additional suction requirements.

#### 4 LARGE CAPACITY DEBRIS CANISTERS

Build your pool with the optional **Equipment Side (EDC)** or **Deck Side (DDC2)** debris containment canister to collect large debris before it reaches the pump basket, reducing stress and keeping the pump running efficiently.

#### 5 VENTURI SKIMMER COLLECTS SURFACE DEBRIS

The optional **ParaskimV Venturi Skimmer** has more skimming power than any standard skimmer at low, energy efficient pump speeds. Removes more surface debris and increases debris removal at the **MDX-R3** floor drain.

#### 6 SWINGJETS ENHANCE CLEANING & CIRCULATION

Optional **SwingJet** ratcheting wall returns sequentially rotate in a 90° arc for enhanced cleaning and circulation from top to bottom.

\*Warning: MDX-R3 and SDX2 must be installed in accordance with Paramount's written instruction manual in conformity with applicable federal, state, local and swimming pool industry building and safety codes.

Founded in 1964, Paramount Pool & Spa Systems is the worldwide leader in automatic in-floor cleaning and circulation systems and water sanitization.

Paramount products are made in America and designed to make pool ownership the most carefree and enjoyable experience possible. Our complete line of pool products will deliver superior results, while paying for themselves over the lifetime of your pool.
