

FORM + FUNCTION EQUALS A CLEAN POOL

- EXTRA LARGE CAPACITY DEBRIS BASKET MEANS FEWER TRIPS TO EMPTY CANISTER
- CONSTRUCTED OF WEATHER AND UV RESISTANT THERMO PLASTICS FOR LONG TERM DURABILITY
- HIGH EFFICIENCY DESIGN ENSURES MAXIMUM WATER FLOW WITH MINIMAL RESTRICTION

EFFICIENT LARGE CAPACITY EQUIPMENT SIDE DEBRIS CANISTER

The main reason to own a pool is to enjoy the refreshing, clean water. The high capacity Equipment Debris Canister (EDC) is designed to capture more debris, reduce cleaning time and enhance the overall aesthetics of your pool design. More fun time less clean time.

The EDC is a highly effective, efficient, easy to install equipment side debris canister for all pools. It's plumbed before the circulation pump to trap debris from spa, skimmer and main drain lines before it reaches the pump and filter. The basket holds up to 68% more debris than any other equipment side canister, and utilizing the included fine mesh bag filters out even smaller debris. Its high efficiency design ensures maximum water flow with minimal restriction.

FROM THE WORLD'S #1 IN-FLOOR
CLEANING SYSTEMS COMPANY

INCLUDES

- EDC canister
- Clear bayonet lid
- Plastic debris basket
- Fine mesh bag

DURABLE & AESTHETICALLY CLEAN

The EDC was also designed with aesthetics in mind. It is constructed of weather and UV resistant thermo plastics for long term durability. Installing the debris canister at the equipment pad eliminates an extra deck lid to give your pool deck a cleaner look.

**HOLDS UP TO
68% MORE DEBRIS
THAN ANY OTHER EQUIPMENT SIDE CANISTER**

CLEANEST POOL POSSIBLE

The EDC is even more effective with Paramount's in-floor cleaning and circulation system. Debris is swept into Paramount's MDX-R3 debris drain by powerful jets of water where it is transported to the high capacity EDC for easy removal. Giving you a clean, healthy pool with minimal maintenance. Now That's Pool Life Simplified™.
