

**STEPCLEAN**<sup>®</sup>

STEP, BENCH & SPA CLEANER

**STEP INTO A CLEAN POOL**

## PERFECT FOR STEPS AND BENCHES

### Features & Benefits

#### The perfect complement to robotic cleaners

Have a clean pool every step of the way with a Paramount® STEPCLEAN™ system. Steps, benches, and spa are cleaned automatically. STEPCLEAN pop up nozzles takes over where robotic cleaners leave off and cleans the areas that robots can't reach. After it's done cleaning the nozzles disappear back into the pool shell becoming virtually invisible, and minimizing time spent manually brushing and netting debris. Plus, clean, filtered water delivered by the cleaning nozzles enhance the circulation of the pool, reducing both chemical and energy costs.

- No need to spend time brushing or vacuuming steps and benches.
- Every STEPCLEAN system is custom designed for each pool or spa to maximize the cleaning effectiveness.
- Multiple cleaning nozzles improve your pools overall circulation lowering chemical and heating costs saving you money for the life of the pool.
- STEPCLEAN operates whenever your filter pump is operating and does not require an extra pump.
