

VANISH IN-FLOOR CLEANING SYSTEM

LET YOUR POOL DO THE WORK.
YOU CAN DO THE PLAY.

LET YOUR POOL CLEAN ITSELF

ALWAYS SWIM READY

When it comes to free time, there are more important things to do than tending to your swimming pool. Build your pool to clean itself with Vanish, the automatic in-floor cleaning and circulation system. Built into the vinyl pool floor, Vanish nozzles pop up systematically to clean your entire pool, then retract flush after the cleaning cycle, becoming virtually invisible. There are no vacuum hoses left floating in the pool, and no mechanical devices to be removed. All that's left is a sparkling clean pool, ready to enjoy.

GUARANTEED CLEAN & CAREFREE

Vanish is so effective that it will clean 99% of your pool, guaranteed*, all with minimal maintenance required. Paramount in-floor cleaners are considered the most technologically advanced pool cleaners available and are built to last for the life of your pool. That's why Vanish comes with a lifetime limited warranty on all cleaning nozzles. Peace of mind and low maintenance make for a perfect combination.

- 99% pool cleaning guaranteed
- Cleans entire pool floor and walls
- Always swim ready
- No mechanical cleaners and hoses to remove
- Saves chemical & energy costs with improved circulation
- No routine maintenance
- Limited lifetime warranty on cleaning nozzles
- Developed by the World's #1 In-Floor Cleaning Systems Company

CLEAN & VIRTUALLY UNSEEN

*See cleaning certificate for complete details

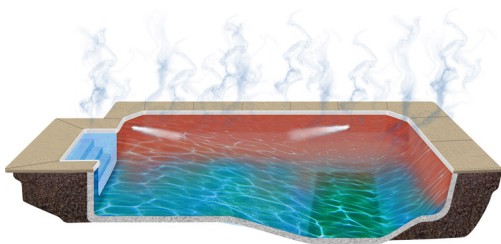

THE TECHNOLOGY BEHIND THE RELAXATION

POWERFUL CLEANING CYCLE

Vanish uses rotating cleaning nozzles placed strategically in your pool floor, directing debris from every corner of your pool towards the Vanish Debris Collection Zone and the MDX-R3® debris safety drain. After only a short time your pool will be cleaned, and Vanish will disappear back into the pool floor. Virtually all that's left to do is relax and enjoy a clean well circulated pool.

AN ADVANCED CLEANING & CIRCULATION SYSTEM

In pools without a Vanish in-floor system, water circulates near the pool surface, where chemicals and heat are quickly lost into the atmosphere. This often leads to wasted chemicals, wasted heat energy and several poorly circulated and algae-prone areas throughout your pool. Vanish improves circulation with strategically placed cleaning nozzles in the pool floor that evenly circulate water throughout your pool. This improved circulation has been proven by independent studies to create cleaner, healthier, and more comfortable pool water, while reducing the loss of chemicals and heating energy into the atmosphere. This means Vanish will save you money while it cleans your pool.

Pool without Vanish in-floor system is poorly circulated, resulting in chemical and heat energy loss, as well as algae-prone areas

BENEFITS OF A WELL-CIRCULATED VANISH POOL

- Complete circulation of water and chemicals
- No algae-prone areas
- Eliminates cold spots and extends the swim season
- Saves on chemical and heating costs
- Better for the environment

Nozzles are available in several designer colors

A SYSTEM OF EXCEPTIONAL PRODUCTS.

1 VANISH NOZZLES

Vanish rotating cleaning nozzles sweep debris off pool floor and walls towards and into the optional debris removing MDX-R3 debris drain and skimmer.

2 MDX-R3 DEBRIS DRAIN

MDX-R3 safety drain continually collects large debris from the patented debris collection zone and delivers it to the optional DDC or EDC debris containment canisters.

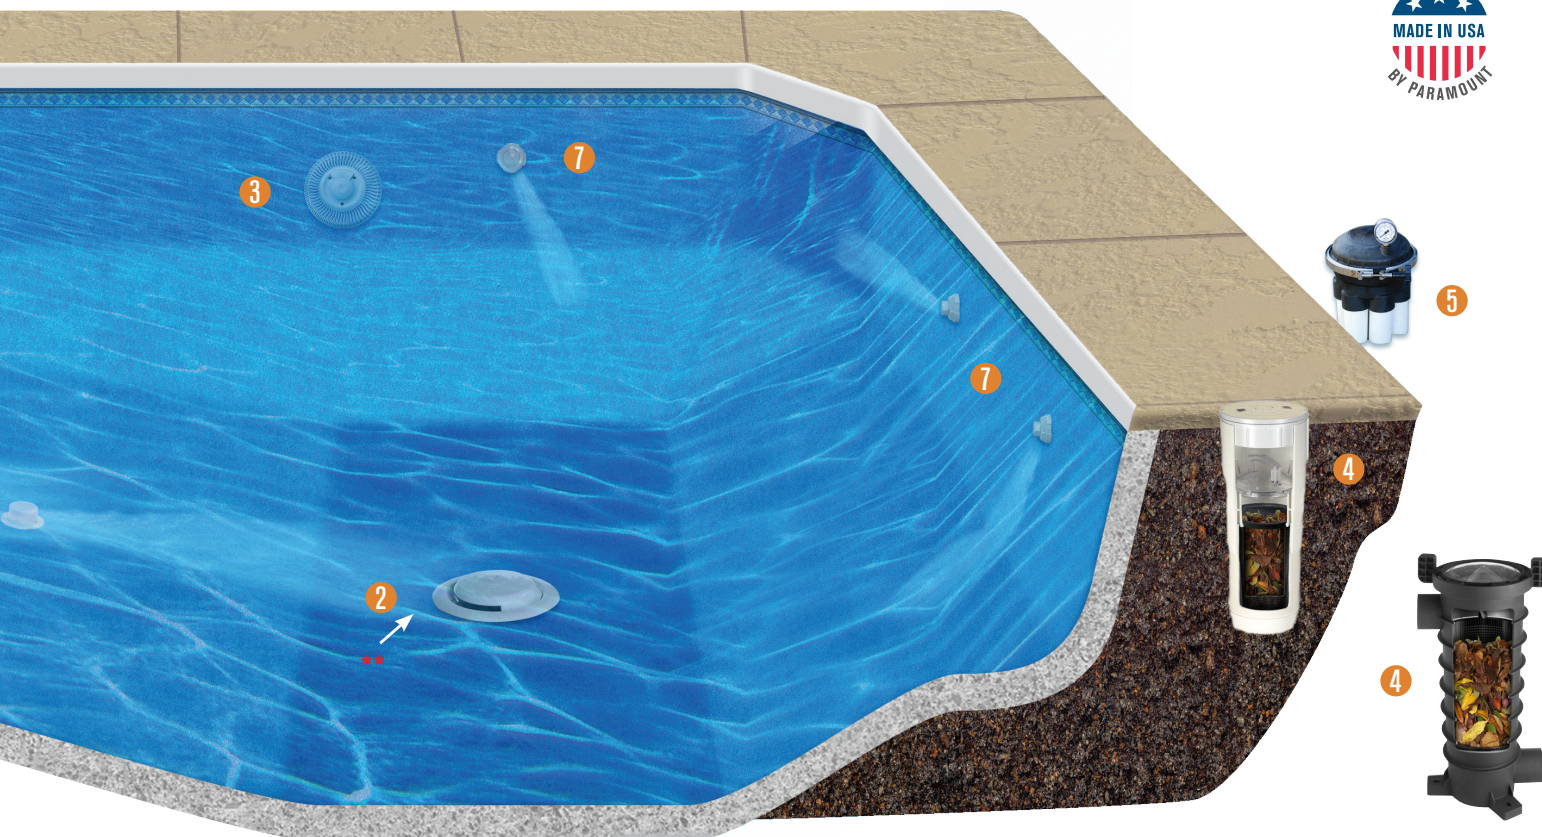

3 HIGH FLOW SAFETY DRAIN

SDX2 high flow safety drain delivers superior flow at low velocities. Patented "ribbed" design works together with the MDX-R3 for additional anti-entrapment protection.

See Vanish in action at www.1paramount.com/products/vanish

*Excludes steps and benches. Only applies to systems that include an MDX-R3 drain. See cleaning certificate for complete details. MDX-R3, SwingJet, Debris Containment Canister, and nozzles in steps, benches, swimouts, and spa are optional.

4 EDC/DDC DEBRIS CANISTERS

Optional debris canisters collect debris before it reaches the pump basket, keeping the pump running efficiently. Both feature the largest capacity basket on the market.

5 AUTOMATIC WATER VALVE

Functions as the **brain of the system** and directs a powerful flow of water to each set of cleaning nozzles. Requires **no routine maintenance**, and is also 100% pressure safe.

6 VENTURI SKIMMER

Optional eco-friendly **ParaskimV** Venturi action skimmer doubles cleaning power while using the same energy, providing efficient and effective skimming even at low pump speeds.

7 SWINGJETS

Optional **SwingJet** ratcheting wall returns can be aimed to focus the 90 degree cleaning arc to target steps, benches and hard to reach places for enhanced cleaning and circulation from top to bottom.

****Warning:** MDX-R3 and SDX2 must be installed in accordance with Paramount's written instruction manual in conformity with applicable federal, state, local and swimming pool industry building and safety codes.

Pool life. *Simplified.*

Since applying for our first in-floor cleaning patent in 1967, Paramount has been a leader in pool technologies. Developing cleaning and circulation systems that will deliver superior results, while paying for themselves over the lifetime of the pool.

All Paramount products are made in America and designed to make your pool experience the most carefree and enjoyable experience possible.

"Our passion is driven by creating innovative products and services that simplify your pool life"
