

- CLEANS ENTIRE POOL
- ALWAYS SWIM READY
- 99% CLEANING GUARANTEED
- ENHANCED CIRCULATION
- SAVES ON CHEMICAL & ENERGY COSTS
- NO ROUTINE MAINTENANCE
- LIMITED LIFETIME WARRANTY ON NOZZLES

FROM THE WORLD'S #1 IN-FLOOR CLEANING SYSTEMS COMPANY

CYCLECLEAN SS ENHANCES CLEANING & CIRCULATION

Enhance your pools cleaning & circulation by adding Paramount's optional **Cycleclean SS** Package, powered by Swingjet technology, to your in-floor system. These patented ratcheting wall returns, sequentially oscillate in a 90 degree cleaning arc sweeping debris from walls and hard to reach places.

*MDX-R³, Swingjet, Mvfuse, Debris Containment Canister, and nozzles in steps, benches, swimouts, and spa are optional.

****WARNING:** MDX-R³ and SDX must be installed in accordance with Paramount's written instruction manual, and in conformity with applicable federal, state, local and swimming pool industry building and safety codes.

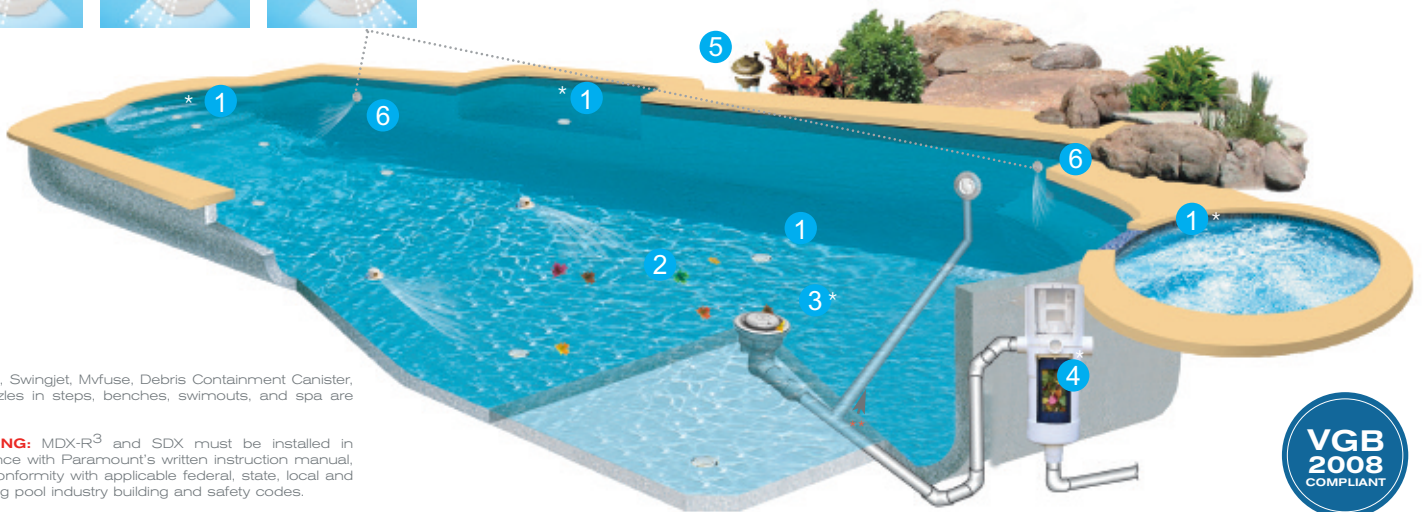

YOU'LL PLAY. WE'LL CLEAN UP.

When it comes to spending your free time there are more important things to do than tending to your swimming pool. Thanks to Cycleclean[®], the automatic in-floor pool cleaning and circulation system, your pool can be built to clean itself while you relax. Built right into the pool shell, Cycleclean is engineered to clean your entire pool, including floors, steps, benches, even spas. When not operating, Cycleclean disappears back into the pool floor, making it virtually invisible. There are no vacuum hoses left floating in the pool. All that's left is a sparkling clean pool that's ready to enjoy.

Cycleclean is custom-designed for your unique pool shape. It is so effective that it will clean more than 99% of your entire pool, guaranteed as well as significantly reduce heating and chemical costs for the life of your pool.

HOW IT WORKS:

1. Pop-up nozzles are placed in floors, steps, benches and even spas to clean the entire pool.*
2. Pop-up nozzles work together to sweep debris to the pool's main drain and skimmer area.
3. An optional **MDX-R³ VGB Compliant Safety Drain effectively removes large debris.
4. An optional debris canister collects the large debris for convenient disposal.*
5. The Cycleclean automatic watervalue functions as the brain of the system and directs a powerful flow of water to each set of cleaning nozzles. The low profile watervalue requires no routine maintenance, and is also 100% pressure safe.
6. The optional patented Swingjet ratcheting wall returns, sequentially oscillate in a 90 degree cleaning arc enhancing the Cycleclean's cleaning and circulation.

**FROM THE WORLD'S #1 IN-FLOOR
CLEANING SYSTEMS COMPANY**

CYCLECLEAN SAVES CHEMICALS, ENERGY AND MONEY WITH IMPROVED CIRCULATION.

Not only is Cycleclean® a powerful pool cleaning system, but it's also an advanced circulation system. Ordinary pools circulate water near the surface of the pool, where chemicals and heat are quickly lost into the atmosphere. This often leads to wasted chemicals, wasted heat energy and several poorly circulated algae-prone areas throughout your pool.

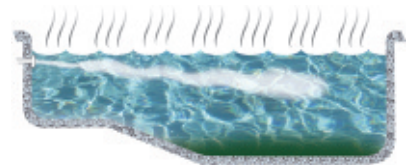

Cycleclean improves the poor circulation found in ordinary pools. Using rotating cleaning jets strategically placed in the pool floor, steps and benches, Cycleclean evenly circulates water throughout every square inch of your pool. This improved circulation has been proven to create cleaner, healthier more comfortable pool water while reducing the loss of chemicals and heating energy to the atmosphere. This means Cycleclean will save you money while it delivers healthier water.

Independent studies have proven that you can expect significant savings in chemical costs and heating costs for the life of your pool.

CIRCULATION BENEFITS:

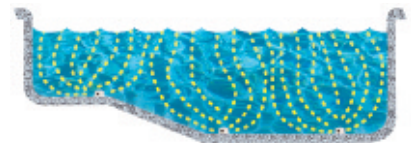

- ENJOY CLEANER, HEALTHIER WATER.
- NO POORLY-CIRCULATED ALGAE-PRONE AREAS.
- ELIMINATES COLD SPOTS FOR MORE COMFORTABLE SWIMMING.
- SAVES CHEMICALS FOR THE LIFE OF THE POOL.
- SAVES ENERGY COSTS FOR THE LIFE OF THE POOL.
- BETTER FOR THE ENVIRONMENT.
- INDEPENDENTLY PROVEN TO SAVE YOU MONEY FOR THE LIFE OF YOUR POOL.
