

BECAUSE CLEANING YOUR POOL IS
JUST A STUPID WAY TO SPEND TIME.

LET YOUR POOL CLEAN ITSELF

ALWAYS SWIM READY

When it comes to free time, there are more important things to do than tending to your swimming pool. Build your pool to clean itself with Vanquish, the automatic in-floor cleaning and circulation system. Built into the vinyl pool floor, Vanquish nozzles pop up systematically to clean your entire pool, then retract flush after the cleaning cycle, becoming virtually invisible. There are no vacuum hoses left floating in the pool, or mechanical devices to be removed. All that's left is a sparkling clean pool that's ready to enjoy.

GUARANTEED CLEAN & CAREFREE

Vanquish is so effective that it will clean 99% of your pool, guaranteed*, with minimal maintenance required. In-floor cleaners are considered the most technologically advanced pool cleaners available and are built to last for the life of your pool. That's why Vanquish comes with a lifetime limited warranty on all cleaning nozzles. Peace of mind and a low maintenance pool; a perfect combination.

- 99% pool cleaning guaranteed
- Cleans entire pool floor and walls
- Always swim ready
- No mechanical cleaners and hoses to remove
- Saves chemical & energy costs with improved circulation
- No routine maintenance
- Limited lifetime warranty on cleaning nozzles
- Developed by the World's #1 In-Floor Cleaning Systems Company

CLEAN & VIRTUALLY UNSEEN

THERE'S TECHNOLOGY BEHIND THE RELAXATION

POWERFUL CLEANING CYCLE

Vanquish's ratcheting, rotating cleaning nozzles are placed strategically in your pool floor to systematically sweep debris out of your pool through the main drain and skimmer. After about an hour, nearly every square inch of your pool will have been swept one time. After only a few hours, your pool will be cleaned. Now all that's left to do is relax and enjoy a clean, well circulated pool.

AN ADVANCED CLEANING & CIRCULATION SYSTEM

In pools without a Vanquish in-floor system, water circulates near the pool surface, where chemicals and heat are quickly lost into the atmosphere. This often leads to wasted chemicals, wasted heat energy and several poorly circulated and algae-prone areas throughout your pool. Vanquish improves circulation with strategically placed cleaning nozzles in the pool floor that evenly circulate water throughout your pool. This improved circulation has been proven by independent studies to create cleaner, healthier, and more comfortable pool water, while reducing the loss of chemicals and heating energy into the atmosphere. This means Vanquish will save you money while it cleans your pool.

Pool without Vanquish in-floor system is poorly circulated, resulting in chemical and heat energy loss, as well as algae-prone areas

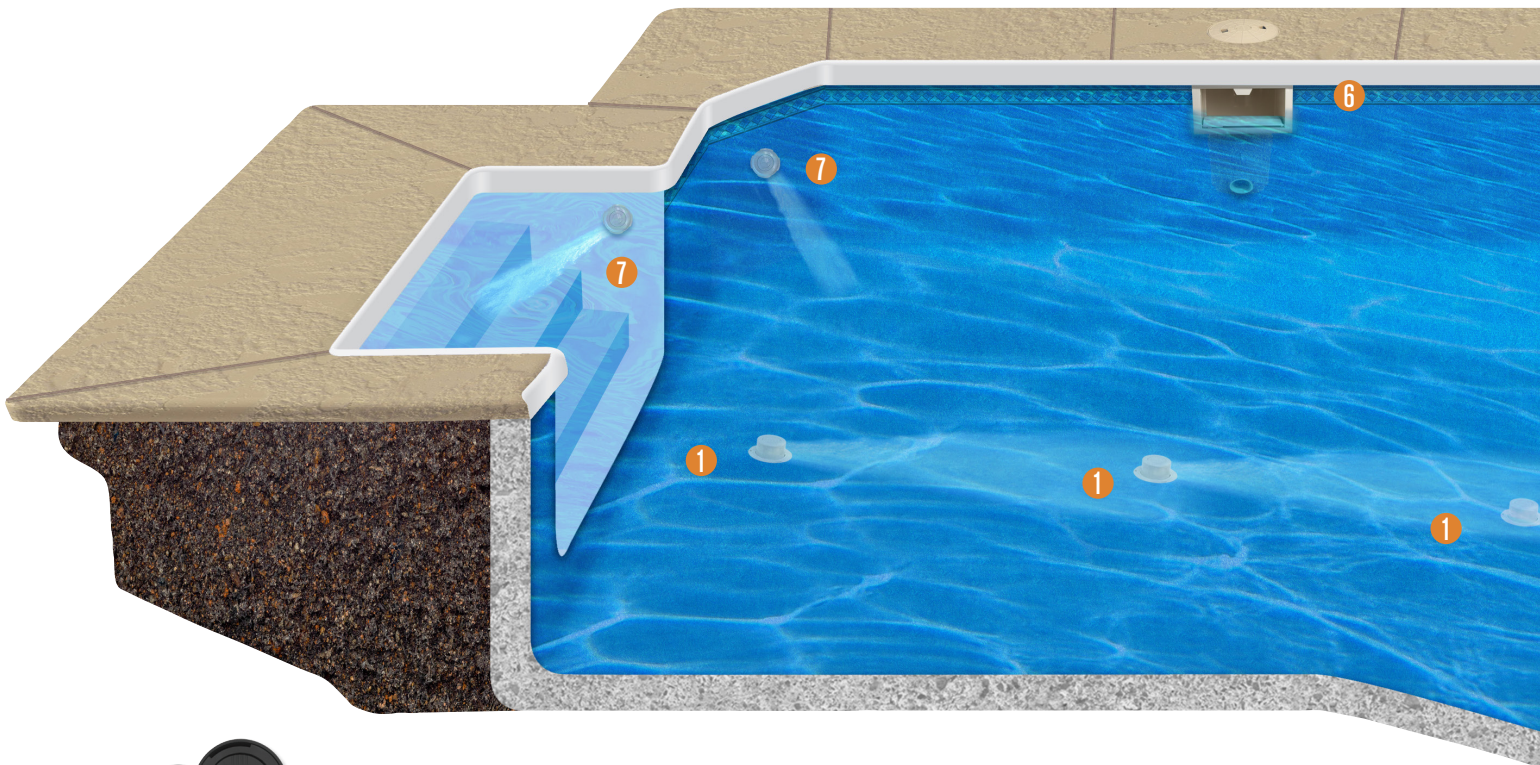

BENEFITS OF A WELL-CIRCULATED VANQUISH POOL

- Complete circulation of water and chemicals
- No algae-prone areas
- Eliminates cold spots and extends the swim season
- Saves on chemical and heating costs
- Better for the environment

Nozzles are available in a selection of designer colors

A SYSTEM OF EXCEPTIONAL PRODUCTS.

1 VANQUISH NOZZLES

Vanquish rotating cleaning nozzles sweep debris off pool floor and walls towards and into the optional debris removing MDX-R3 debris drain and skimmer.

2 MDX-R3 DEBRIS DRAIN

MDX-R3 safety drain continually collects large debris from the patented debris collection zone and delivers it to the optional DDC or EDC debris containment canisters.

3 HIGH FLOW SAFETY DRAIN

SDX2 high flow safety drain delivers superior flow at low velocities. It's patented "ribbed" design works together with the MDX-R3 for additional anti-entrapment protection.

▶ See Vanquish in action at www.1paramount.com/products/vanquish

MDX-R3, Swingjet, Debris Containment Canister, and nozzles in steps, benches, swimouts, and spa are optional. ****Warning:** MDX-R3 and SDX2 must be installed in accordance with Paramount's written instruction manual in conformity with applicable federal, state, local and swimming pool industry building and safety codes.

4 EDC/DDC DEBRIS CANISTERS

Optional debris canisters collect debris before it reaches the pump basket, keeping the pump running efficiently. Both feature the **largest capacity basket** on the market.

5 AUTOMATIC WATER VALVE

Functions as **the brain of the system** and directs a powerful flow of water to each set of cleaning nozzles. Requires **no routine maintenance**, and is also 100% pressure safe.

6 VENTURI SKIMMER

Optional eco-friendly **ParaskimV** Venturi action skimmer doubles cleaning power while using the same energy, providing effective skimming even at low pump speeds.

7 SWINGJETS

Optional **Swingjet** ratcheting wall returns can be aimed to focus the 90 degree cleaning arc to target steps, benches and hard to reach places. for enhanced cleaning and circulation from top to bottom.
