

- POOL IS ALWAYS SWIM READY
- ENHANCES CIRCULATION
- SAVES ON CHEMICAL & ENERGY COSTS
- NO UNSIGHTLY CLEANER TO REMOVE

LET YOUR POOL DO THE WORK. YOU CAN DO THE PLAY.

HOW VANQUISH CLEANS & CIRCULATES

Nozzles pop up and sweep debris towards the drain and skimmer with powerful jets of water; ultimately cycling through a full 360 degrees.

When finished cleaning they retract flush with the floor, becoming virtually invisible.

99%
CLEANING

- Always swim ready
- No mechanical cleaners and hoses to remove
- Saves chemical & energy costs with improved circulation
- No routine maintenance
- Limited lifetime warranty on cleaning nozzles
- Developed by the World's #1 In-Floor Cleaning Systems Company

SWINGJETS ENHANCE CLEANING & CIRCULATION

Enhance your pools cleaning & circulation by adding optional SwingJets to your Vanquish in-floor system.

Patented ratcheting wall returns that sequentially oscillate in a 90 degree cleaning arc, sweeping debris from walls and hard to reach places.

When it comes to spending your free time there are more important things to do than tending to your swimming pool. Thanks to Vanquish, the automatic in-floor pool circulation and cleaning system, your pool can be built to clean itself while you relax. Built right into the pool, Vanquish is engineered to clean your pool floor and walls. When not operating, the Vanquish nozzles disappear flush with the pool floor, becoming virtually invisible. There are no unsightly robotic cleaners and hoses. All that's left is a sparkling clean pool, ready to enjoy.

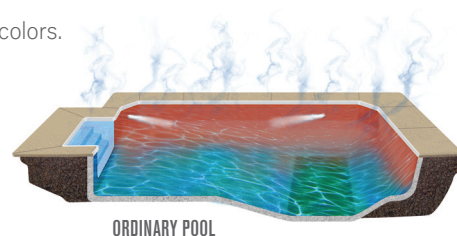

Paramount in-floor cleaners are considered the most technologically advanced pool cleaners available, built to last for the life of your pool. That's why Vanquish comes with a lifetime limited warranty on all cleaning nozzles. It's just one more way Vanquish helps you relax and enjoy your pool.

HOW VANQUISH WORKS:

- Your pool is divided into separate cleaning zones, individually activated by a water valve.
- The nozzles in each cleaning zone utilize a high pressure jet of water to blast away all dirt and debris in its path.
- Each zone directs dirt and debris to the optional MDX-R3® debris safety drain
- Add optional patented SwingJet ratcheting wall returns for additional cleaning and circulation benefits.
- Nozzles are available in several designer colors.

CIRCULATION & SAVINGS BENEFITS:

- Enjoy cleaner, healthier water
- No poorly circulated, algae prone areas
- Eliminates cold spots for more comfort
- Saves energy costs for the life of the pool
- Better for the environment

*Excludes steps and benches. Only applies to systems that include an MDX-R3 drain. See cleaning certificate for complete details. **WARNING: MDX-R3 and SDX2 must be installed in accordance with Paramount's written instruction manual, and in conformity with applicable Federal, State, Local and Swimming pool industry building and safety codes.
