

# SEE MORE BEAUTY. HEAR MORE BEAUTY.

Elegant water features to elevate  
the aesthetic look of your pool  
and give you the calming sounds  
of a gentle waterfall

FLOWER

BUBBLER

UMBRELLA

## ELEVATE YOUR POOL AND SPA DESIGN

The Parascope® telescoping water features create the soothing sounds of splashing water and elevates your pool design above the water level. The Parascope® Mini Bubbler (available separately) is perfect for steps, benches and sun decks in water depths up to 18".

## BEAUTIFUL AESTHETICS

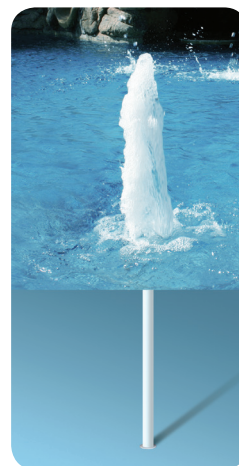

It's beautiful when it's on but when it's time to swim, Parascope® descends flush with your pool or spa floor, steps, benches, or sun decks making them virtually undetectable.

### Parascope®

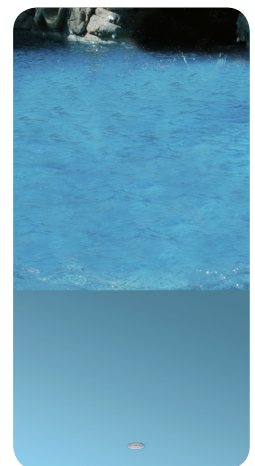

- Variable height adjustment. Works in water depths up to 36"
- Includes 3 fountain styles: Flower, bubbler and umbrella

### Parascope® Mini Bubbler

- Perfect for steps, benches and sun decks in water depths up to 18"

When activated, it emerges from the pool floor and rises to the water surface.

When off, it retracts back into the pool floor, becoming virtually invisible.

Fountain caps available in six colors to complement any pool or spa finish.
