

THE VECTORJET CLEANS YOUR POOL'S SPECIAL FEATURES BETTER!

Keeping your pool cleaner just got easier. The VectorJet's flexibility to be aimed and the multiple cleaning angles cleans your pool's special features and hard to reach areas. It's a perfect complement to Paramount's in-floor cleaning and circulation system.

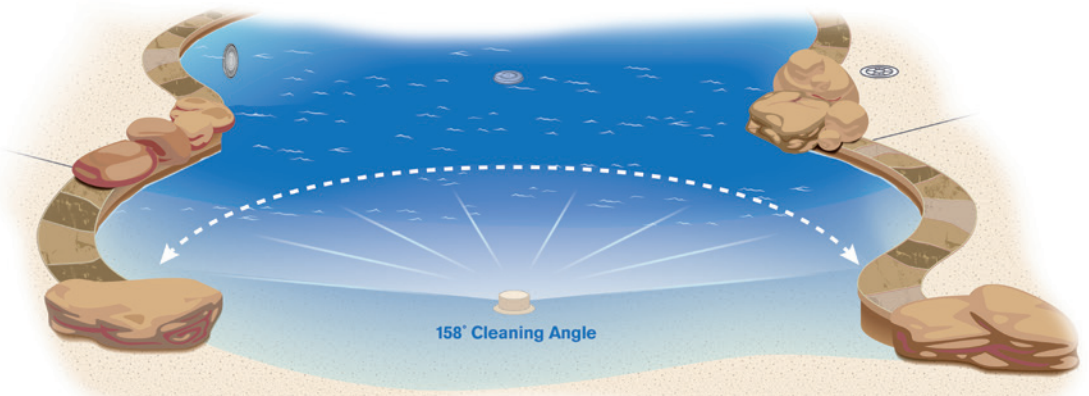

- CLEANS HARD TO REACH AREAS AND IS IDEAL FOR BEACH ENTRIES, WATER BASINS AND LAZY RIVERS
- 16 INDIVIDUAL CLEANING POSITIONS FOR CLEANING ANGLES FROM 22.5° TO 360°
- LIMITED LIFETIME WARRANTY ON NOZZLES

THE PATENTED VECTORJET IS AN EXCLUSIVE PRODUCT FROM THE WORLD'S #1 IN-FLOOR CLEANING SYSTEMS COMPANY

Beach Entries. The VectorJet is all you need to clean your beach entry. The cleaning angle is pre-set at the factory to your pool's specifications for optimal cleaning. The advantage of using the VectorJet is the wide cleaning angle to sweep debris in one direction towards the MDX-R3' main drain in your pool instead of blowing debris and water onto your deck.

Negative Edge Water Basins. Whether you have a wide or narrow negative edge water basin the VectorJet will keep it clean by always sweeping dirt and debris towards the MDX-R3' drain in the basin.

Lazy Rivers. Place a few VectorJets in your lazy river to keep dirt and debris moving in a single planned direction toward the MDX-R3* debris receiving drain in the pool. Unlike other jets, the VectorJet is aimed and the cleaning angle set typically at 180° to completely sweep the entire width of the river.

VECTORJET IN BEACH ENTRY

A single jet in your beach entry is all you need

VectorJet™

VARIABLE ROTATING JET

THE PATENTED VECTORJET
IS AN EXCLUSIVE PRODUCT
FROM THE WORLD'S #1 IN-FLOOR
CLEANING SYSTEMS COMPANY

VECTORJET IS THE ONLY JET WITH THE FLEXIBILITY TO AIM, OSCILLATE AND ADJUST THE CLEANING ANGLE TO CLEAN YOUR POOL'S UNIQUE FEATURES

Paramount's patented VectorJet is the first and only jet with the unique ability to set a cleaning angle and aim it to clean those hard to reach areas with its oscillating, sweeping action. It's ideal for cleaning special water features such as beach entries, negative edge water basins, lazy rivers and long narrow pools or lap pools.

AIM & CLEAN!

The VectorJet comes from the factory pre-set to a specific cleaning angle for your pool's design whether you need a wider angle for a beach entry or a narrow angle for a long negative edge water basin. The cleaning angle can be reset on site for finer adjustments.

The VectorJet's oscillating, sweeping action directs a powerful jet of water in one direction to effectively sweep debris towards the other in-floor cleaning jets and into the MDX-R3® main drain.

16 cleaning angles in increments from 22.5° to 360° for optimal cleaning
