

EXPERIENCE THE FREEDOM
OF A SELF-CLEANING POOL.

NO HOSES. NO HASSLE. NO MESS.

POWERFUL CLEANING CYCLE

Thanks to PV3, the patented, automatic in-floor pool cleaning and circulation system, your pool can be built to clean itself while you relax. Built directly into the pool floor, PV3 is engineered to clean your entire pool, including walls, floors, steps, benches, and even spas. When not operating, PV3 nozzles retract flush with the pool floor, becoming virtually invisible. There are no vacuum hoses left floating in the pool, or mechanical devices to be removed. All that's left is a sparkling clean pool that's ready to enjoy.

GUARANTEED CLEAN & CAREFREE

PV3 is custom designed for your unique pool shape, and is so effective that it will clean 99% of your entire pool, guaranteed. And with a lifetime limited warranty on all cleaning nozzles, PV3 is built to last for the life of your pool. It's just one more way PV3 gives you peace of mind and a low maintenance pool.

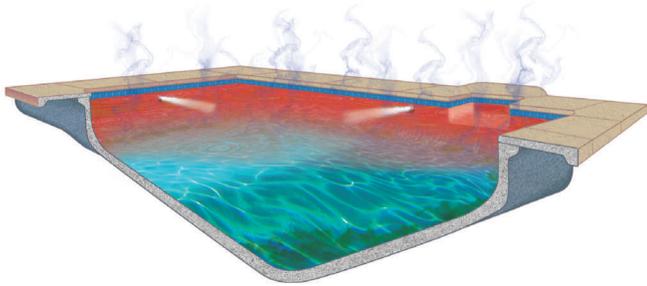

- NO ROUTINE MAINTENANCE
- NO UNSIGHTLY CLEANER TO REMOVE FROM THE POOL
- 99% POOL CLEANING GUARANTEED INCLUDING STEPS, BENCHES, SPAS AND WATER FEATURES
- ENHANCED CIRCULATION AT LOWER ENERGY SAVING PUMP SPEEDS
- LIMITED LIFETIME WARRANTY ON CLEANING NOZZLES

CLEAN & VIRTUALLY UNSEEN

99% Clean Guarantee: Pool design, elements or features that prohibit placement of system components will not be considered part of the 99% cleaning guarantee. See cleaning certificate for complete details. Limited Lifetime Warranty applies to the original pool owner. Please see our All Inclusive Warranty for details.

ENHANCED CIRCULATION IS EFFORTLESS.

Standard pools are poorly circulated, resulting in chemical and heat energy loss, as well as algae-prone areas

CIRCULATION ADVANTAGES OF A PV3 POOL

- Complete circulation of water and chemicals
- No poorly circulated or algae-prone areas
- Eliminates cold spots for more comfortable swimming
- Extends the swim season
- Saves on chemical and heating costs for the life of the pool
- Fewer chemicals mean a healthier environment

CIRCULATION MEANS CLEANER & HEALTHIER WATER

In a standard pool, water is circulated near the pool surface where chemicals and heat are quickly lost into the atmosphere. This leads to wasted chemicals and heat energy, and a poorly circulated pool can often create algae-prone areas. PV3 utilizes strategically placed cleaning nozzles in the pool floor, steps and benches, to evenly circulate water from the bottom up. This improved circulation creates cleaner, healthier, more comfortable pool water, while reducing the loss of chemicals and heat energy into the atmosphere.

EFFICIENT & ECONOMICAL

The key to PV3's unsurpassed performance is its water-powered hydraulic valve. A hydraulic water valve is more efficient and reliable than traditional mechanical valves, which means it uses less energy and operates with more power, each and every cleaning cycle. When used with today's variable speed pumps, PV3 ensures full circulation without any stagnant areas - at even the lowest pump speeds.

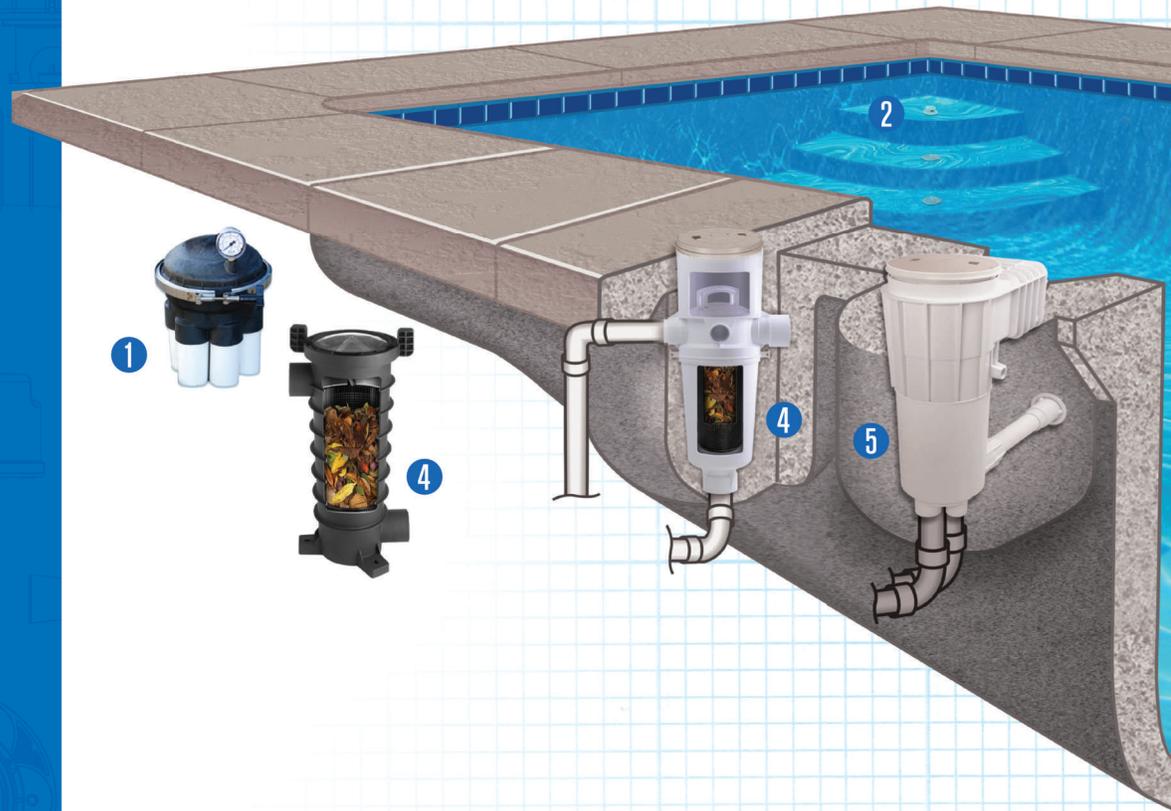

THE TECHNOLOGY BEHIND RELAXATION

- INFINITE POSITION NOZZLES CLEAN A FULL 360° WITHOUT CREATING A STAR PATTERN ON THE POOL FLOOR
- NON-WEARING NOZZLES HAVE NO MOVING PARTS AND COME WITH OUR LIMITED LIFETIME WARRANTY
- RETRACTS FLUSH WITH POOL FLOOR AND BECOME VIRTUALLY INVISIBLE WHEN NOT IN USE
- AVAILABLE IN 6 COLORS THAT COMPLEMENT ANY POOL FINISH

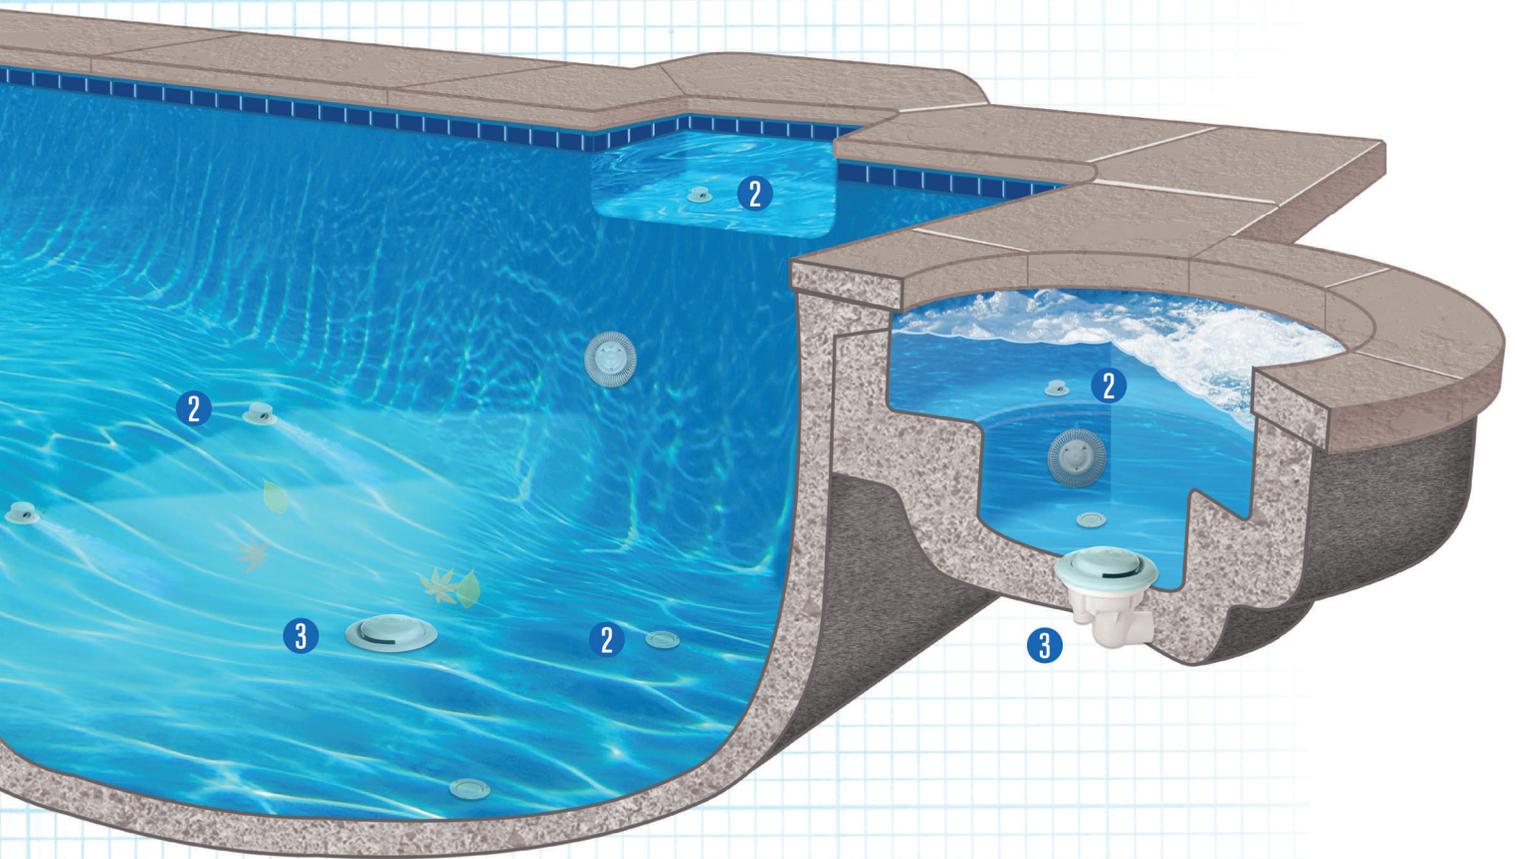

A SYSTEM OF EXCEPTIONAL PRODUCTS

1 AUTOMATIC WATER VALVE CONTROL SYSTEM

The PV3 Water Valve functions as the hydraulic brain of the system, directing a powerful flow of water to each set of cleaning nozzles.

2 ROTATING POP-UP NOZZLES SWEEP POOL DEBRIS

Weighted rotating cleaning nozzles sweep debris off pool floors, steps and benches towards and into the debris removing MDX-R3 drain and skimmer.

3 MDX-R3 DEBRIS REMOVAL SAFETY DRAIN

The MDX-R3 can safely & efficiently remove small and large debris from the pool - including large leaves, pine needles, and acorns and seed pods up to 1" in diameter.

4 LARGE CAPACITY DEBRIS CANISTERS

Paramount's Equipment Side or Deck Side debris canisters are the largest in the industry, helping ensure optimal pump efficiency by keeping debris out of the pump baskets.

5 VENTURI SKIMMER EFFECTIVELY COLLECTS SURFACE DEBRIS

The Eco-friendly ParaskimV Venturi Skimmer features enhanced surface skimming - even at low pump speeds- resulting in the best surface debris removal in the industry.
