

Clear O₃[®]
Ozone Pure Water

CLEAN WATER. PURE AND SIMPLE.

The Clear O3 ozone system is an ideal upgrade for new or existing pools and spas, delivering cleaner, healthier water. It uses ozone to break down contaminants that can otherwise form irritating by-products when combined with chlorine.

Built with a durable aluminum body and sealed design, Clear O3 is engineered for long-lasting performance and safety in pool environments. Its high-efficiency UV system generates ozone, which is injected into the water to improve circulation and purification—creating a powerful, low-maintenance solution for clearer water.

- » Save up to 60% on chemical costs
- » Single unit works effectively on pools up to 55,000 gallons
- » Easily breaks down unwanted pool particles
- » Flow meter establishes ideal flow of air for efficient ozone production
- » UV bulb replaced every 10,000 hours
- » 2 year warranty
